Old Board Candidates Reply To Mr. Rand.

W. J. Rand.
Paso, Texas.

Sir.
he Morning Times March 21st.
built an open letter to the School in which you state that you o objection to the present memfithes school Board, but to the atendent of our City Schools; all your continues and partisans RUMP CONVENTION called by few days are placed your objects the politics of some of the School Board, but to the atendent of our City Schools; all to the state of some seed at the state of the school Board, but to the state of the school Board B Dear Sir.

In the Morning Times March 3kst.
you submit an open letter to the School Board, in which you state that you have no objection to the present members of the School Board, but to the Superintendent of our City Schools: al-

curs to us that if you and your friends are so strengously opposed to the Superintendent, you must have some definite objections to him or his policies in the past, and as a citizen, interested as you say in the welfare of the schools, you should have haid your complaint before the proper authorities before you attempted to drag our schools into politics, which, as you know, is bound to injure, if not to disrupt our public school system in this city.

You should know, as it is a matter for public record, to which considerable publicity was given at the time in the newspapers, that our present Superintendent, Mr. R. J. Tiche him one year intendent, Mr. R. J. Tiche him one year intendent, Mr. R. J. Tiche him one year

intendent, Mr. R. J. Tirche, has one year yet to serve, under his contract with the School Board, he having been elect-ed hast Spring as Superintendent for the term of two years, as he was when he first came to El Paso to take charge of our City School

Its direction.

Tou also should realize that we would be unwilling to discharge the Superintendent merely because you or any other solitician might wish it.—even though, with your powerful personal and political organization you might be able to encompass our defeat.

We have heard rumblings from political sources for some time past, in which objections have been made to the city Superintendent, and we realize that he Superintendent, however worthy, can please all of the teachers and patrons, particularly if he be a man of any force or executive ability.

New, although we have no right to discharge the Superintendent without and trains, before the experiation of the term for which he has been elected, still we believe that the Superintendent would not want to confinue discharge the Superintendent without ust cause, before the expiration of the term for which he has been elected, still we believe that the Superint tendent would not want to confinue in that position if he felt that he was not the choice of the representative citizens, of \$22 Paro, and particularity of the patrons of the schools.

Now, if you and your friends are really acting in good faith in this matter, and are not seeking to advance

proposition.

If you will present to the School Board a petition, signed by a respectable number of bonn fide patrons of our schools, requesting such action we,-in case of our re-election, w we,—in case of our re-election, will submit the issue to the patrons of the schools before the Spring election of teachers, and if the majority of these patrons vote for his removal, we have no doubt that he will willingly with-draw from his position and we would have no hesitancy in asking for his resignation.

draw from the hard of the proposition to donate the resignation.

As to the proposition to donate the paving bill to the public schools of El Paso in which you evidently seek to tempt the couprily of the tax paying voters, and your proposition in which you offer to contribute personally to our campaign fund and work for our re-election, tempting as this proposition might be to a politician, we will say if the public schools owe the Bitulithic company shythling, the School Board will have no hesitancy in paying the bill, but we cannot ascede to your proposition to retire the Superintendent merely on your request even though it night result in our re-
